

REPUBLIC OF KENYA

BOARD OF REGISTRATION OF ARCHITECTS
AND QUANTITY SURVEYORS (BORAQS) KENYA

BORAQS KENYA

BORAQS PROJECT PORTAL UPDATED VERSION MARCH 2023.

The Board established a “Projects portal module” to enable professionals submit their projects through www.boraqs.or.ke.

During the last stakeholder’s engagement, it was proposed that the Board include the Standard Professional Services Contract (SPSCA) to help professionals get paid for all the services offered. The Board has completed the upgrading of the portal.

The Portal is expected to;

- Ensure that professionals are contractually engaged by their clients and for ease of follow up on remunerations.
- Protect professionals from fraud related cases occasioned by the unregistered persons especially during projects approval or development stages.
- Limit chances of supplanting.
- Be linked to county Governments, National Construction Authority and Engineers Board of Kenya.

Join us this Thursday 6th April 2023 11.00. a.m. online via Zoom platform as we take you through the process. Meeting ID: 365 766 1035; Passcode: boraqs2023

The Board is committed to ensure that the professionals provide quality services and similarly earn their fees as prescribed.

Arch. S. K. Muli, OGW
